Attention: Mr. Joe D. Ramey

Dear Sir:

With reference to your recent request for information concerning the present status of Cabot's McAlester State "A" No. 2 located in Unit E, Section 32, T-8-S, R-33-E, please be advised that we are in the process of transferring ownership of this well to the surface lessee to be used as a water well.

As I mentioned to you on the telephone, this well was drilled to a total depth of 291' with cable tools, and casing was not set. After operations were abandoned, the rancher indicated a desire to take the well over and install a wind mill to pump fresh water. Therefore we have requested our legal department to draw up a letter agreement making the necessary transfer, and you will be furnished a copy of the agreement.

Very truly yours,

Percy C. O'Quinn
