Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The well is producible in present condition (Shut-in):

- The well is capable of producing in paying quantities.
- It was shut in September 1, 1979.
- Well is not being produced because of cracked gear box & damaged gears.
- The last production test was taken on September 1, 1979, showing results of 5 bbls of oil per day and 20 bbls of water per day.
- The estimated potential producing rate is 5 bbls of oil per day.
- The well will be placed on production upon the return of the gear box from Houston in approximately 30 days.

18. I hereby certify that the foregoing is true and correct
