REPAIRING WELL ☐ALTERING CASING ☐ABANDONMENT* ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Perforations have been made in the Queen Sand with 4 shots per foot from 2815' - 2833' and are presently open. Plan to temporarily abandon this well for one year. A bull plug will be screwed on the top of the tubing and a chain and lock will be placed on the master valve to secure it.

The geological and reservoir engineering data will be evaluated to determine the disposition of this well.

Approved subject to proper fencing of open pits or assumption of liability of pits by the surface owner. BJS.

18. I hereby certify that the foregoing is true and correct
