17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was drilled to a T.D. of 9190' in the Pennsylvanian. No commercial shows of hydrocarbons were encountered below 4500'. We propose to plugback in the following manner:

**30 sk cement plug 9090-9190
60 sk cement plug 8700-8900
30 sk cement plug 8200-8300
30 sk cement plug 7210-7310
60 sk cement plug 4550-4750**

9.7# mud will be left between each plug. 4-1/2" casing will be set at approximately 4500' for a completion attempt in the San Andres.

Plugs verbally approved by Mr. Joe D. Ramey.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
