SUBJECT: Well Repair
New Mexico H St. SWD #13-P in Sec 16, T8S, R30E

Gentlemen:

This letter will confirm telephone conversation between Evelyn Downs of this office and Mr. Richard Lemon on this date.

The above-referenced disposal well has had no injection reported since August 1984. Mr. Lemon informed us in December 1984 when we had scheduled a bradenhead test on the well that it had a tubing leak and repair should be completed by the end of January 1985. As per today's conversation, the repair has not been done.

You are hereby requested to submit a form C-103 by March 1, 1985, indicating your plans for repair or plugging of this well.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
