	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

McClellan Oil Corporation requests approval for shut-in status on the Federal "17" Com. No. 1. This well is capable of producing but is shut-in due to lack of market for the gas. We have been unable to secure a market for the gas from American Processing.

- \* The following will be scheduled and performed in accordance with applicable rules and regulations:
- 1) Bradenhead test
  - 2) Production verification test
  - 3) Fluid level Sonic test between tubing and casing as per NMOCD Rule 203-C.

McClellan Oil requests permission to run a fluid level Sonic test in lieu of a casing integrity test as putting fluid on the formation would be detrimental to the producing zone.

These tests will be conducted within 90 days of approval and subsequent to notification being given to the BLM.

14. I hereby certify that the foregoing is true and correct

Signed Mark McClellan Title President

(This space for Federal or State office use)

Approved by SI approval on completion of successful test Title Procedure approved

Conditions of approval, if any:

Title 18 U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.
