(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was drilled to a total depth of 10,750' in the Devonian. A Drill Stem Test in the Devonian from 10,684' to 10,697' recovered salt and sulfur water. Pursuant to telephone conversation November 7, 1975 with Mr. Gordon, a 100' cement plug was spotted from 10,737' to 10,637' across the Devonian contact at 10,670'. Casing will set at 10,625' for completion attempts in the Mississippian and Pennsylvanian.
