Re: McClellan Oil Corporation  
Sam State No. 2  
Unit P Section 32-14S-30E  
Chaves County, New Mexico

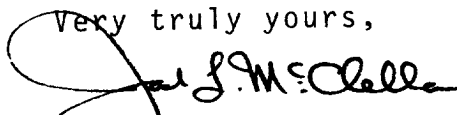

Attention: Mr. Jerry Sexton

Gentlemen:

Pursuant to your letter of May 18, with reference to the above captioned well, the well has been connected by Chala Cryogenics and you should receive that notice of connection today or by at least tomorrow.

This letter is also to inform you that we request an unorthodox location for this test inasmuch as the well was commenced prior to the effective date of Commission Order R-5180 and that the notice of approval to drill was approved prior to your receipt of Order R-5180.

Very truly yours,

Jack L. McClellan  
President

McClellan Oil Corporation  
P. O. Box 848  
Roswell, New Mexico 88201

Gentlemen:

Commission Form C-104 for your Sam State No. 2 located in Unit P of Section 32, T-14-S, R-30-E, will be held without approval until we receive a Notice of Gas Connection from Chala Cryogenics.

We also wish to call to your attention that Commission Order No. R-5180 deleted the area in which this well is located from the Double L Queen Associated Pool and added it to the Vest Ranch Queen Associated Pool, in which a standard location for a gas well is no nearer than 1980 feet from the nearest end boundary and 660 feet from the nearest side boundary of the 320 acre unit dedicated to the well. The Order does grant approval for all wells either drilled or drilling at the time the Order was entered, provided that the operator of any such well notify this office by May 1, 1976.

Since the Notice of Intention to Drill for the Sam State No. 2 was approved prior to our receipt of Order No. R-5180, the unorthodox location will be approved if you will furnish us with a letter as required by the Order.

Yours very truly,

OIL CONSERVATION COMMISSION

  
Jerry Sexton  
Supervisor, District 1
