

#1 Exxon Federal
Sec 6, T-8S, R-31E
Chaves County
New Mexico

Development plan for surface to accompany, "Applications to Drill Onshore Oil, Gas, or Geothermal Steam Wells on Public Domain and acquired Federal Lands."

1. Existing Roads: Running in East-West direction thru middle of Section 6.
Please refer to map attached
2. Planned access roads: Approximately 500' of new road will have to be constructed from road above to location. No caliche will be required unless well is producer. Road will be flagged.
3. Location of existing roads: Please refer to map attached.
4. Location of tank batteries, production facilities, and production, gathering, and service lines: If producing well, production facilities will be located as shown in Exhibit A.
5. Location and type of water supply: Commercial sources
6. Source of construction materials: If producing well, will use caliche from private pit, located in Sec 1, T-8S, R-30E
7. Methods for handling waste disposal: Waste will be buried in pit at least 24" from surface
8. Ancillary facilities: none
9. Well site layout: Please refer to Exhibit "B"
10. Plans for restoration of the surface: If producer, waste pit will be leveled. If dry hole, location will be cleaned and leveled.
11. Other information: Location is approximately 2000' from ranch headquarters and wind mill. Located in NE/NE Sec 6
12. Lessee's or operator's representative: Fred Yates, operations manager, 623-6601. Herb Spencer, production superintendent, 365-2504. Fred Turner, pumper, 623-0427.

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Harvey E. Yates Company, Inc. and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved.
