17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

We hereby make application in accordance with CFR 3103.4-2(a) to shut in the subject well for an indefinite period of time. At the current price of oil, this well is uneconomical to produce, and failure to suspend production will result in premature abandonment. However, at such time as the price of oil increases to a point that would enable this well to be produced economically, we will wish to resume production.

Please approve our application to shut in this well until such time as it becomes possible for us to resume production.

18. I hereby certify that the foregoing is true and correct
