The well was drilling ahead at 12,403' with no problems. We would like to drill to 12,800' because the present correlation indicates that the objective Lower Penn. Sands are indicated to be approximately 200' lower than originally mapped. We respectfully ask for a change of total depth as soon as practical.

13. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
