SUBSEQUENT REPORT OF:

WATER SHUT-OFF ☐ REPAIRING WELL ☐  
FRACTURE TREATMENT ☐ ALTERING CASING ☐  
SHOOTING OR ACIDIZING ☐ ABANDONMENT\* ☐

(Other)

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Proposal: Lay a 2" steel gas sales line (approx. 6500' long) from the W/2 of Sec. 21 (communitized Friend/Dalport lease, across the SE/4 of Sec. 20 (Friend lease) to the SW/4 of Sec. 20 (Dalport lease). See exhibits #1 & #2.

Route: We plan to lay this line on the surface directly alongside an existing caliche road. This will minimize surface disturbance. Note: If you require ditching we would ditch directly alongside the same road.

SN vs ROW: I chose to do this work on a SN since all gas being transported is combination (communitized) Friend/Dalport gas and all leases involved are either Friend or Dalport. Also - the value of the gas is approx. \$.27/MCF and therefore marginal at best.

Archaeological Clearance: The attached Arch. Report was approved for the road construction. We will stay within ten feet (10') of this road.

Work Schedule: We will begin work within one week of your approval. Completion should take about ten (10) days.

18. I hereby certify that the foregoing is true and correct

SIGNED

*James E. Duckles*
