17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Phillips gas line that transported gas from this well has been disconnected because the small volume of gas produced was non-commercial. It is uneconomical to lay another gas line to this well.

Lease gas is used to run the pump motor and operate vessels on the lease. There is almost no gas that is vented. We estimate that the lease produces 3.2 MCF per month.

We request permission to vent any gas not used for lease operations.
