This form is to be filed with the appropriate District Office of the Commission not later than 30 days after the completion of any newly-drilled or deepened well. It shall be accompanied by a copy of all geophysical and test data for the well and a summary of all special tests conducted, including drill stem tests. All test results reported shall be compared to logs. In the case of conventionally drilled wells, true vertical depths shall also be reported. For multiple completions, thicknesses shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1101.
