Re: Mary Ella "11" Well #1-D
Section 11, T8S, R33E

Gentlemen:

On February 4th we had a request to inspect the above-referenced plugged location in order to get the plugging bond released. On February 10th we inspected the location and found it is not ready to be released.

The following items must be corrected:

- 1) Tank and water leg removed from location
- 2) Pits broken out and levelled.

When the above items have been corrected and the location is ready for re-inspection, please sign and return a copy of this letter.

Very truly yours,

OIL CONSERVATION DIVISION
