Re: Recompletion  
McClellan A Federal #2-H  
Section 27, T15S, R30E

Gentlemen:

We have received from the BLM a copy of your sundry notice indicating the above-referenced well should have been designated as an Abo gas well, instead of Wolfcamp as stated on well completion report. Our geologist, Paul Kautz, concurs with this finding.

However, you indicate your dedicated acreage for the Abo gas well to be the E/2 NE/4 Section 27 (80 acres). This does not conform with OCD policy on acreage dedicated to an Abo gas well. Our rules require 160 acres be dedicated. Please resubmit acreage dedication plat, Form C-102 showing 160 acres. Anything less than that will require approval of a non-standard proration unit.

Also, before the well can be produced it will be necessary for you to file Form C-104, Request for Authorization to Transport Oil & Natural Gas.

If you have further questions, please contact Evelyn Downs at 505-393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
