Gentlemen:

The approval to vent gas from the captioned batteries expired October 3, 1985.

Yates Drilling Company respectfully requests a continuation of our approval to vent gas on these batteries.

We have been diligently seeking a contract for the gas in the Queen field but we have been unsuccessful in our attempt.

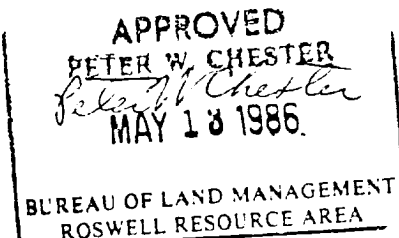

The high nitrogen and carbon dioxide content of the gas makes the gas uneconomic for any purchaser in the area. At such time as a contract may be obtained gas connections to a gas sales line will be made in a timely manner.

If you need anything further, please advise.

Sincerely,

YATES DRILLING COMPANY

Karen J. Leishman
