ATTN: Mr. Peter Chester

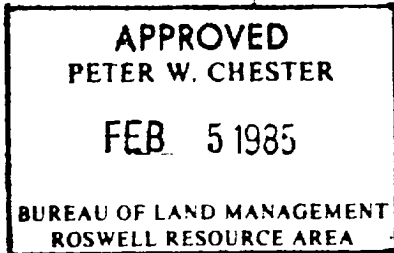

RE: APPROVAL TO FLARE CASINGHEAD GAS  
South Tomahawk Federal #3  
Unit I: 1980' FSL & 660' FEL, 6-85-32E  
Chaves County, New Mexico  
BLM Lease No. : NM 0347394

Dear Mr. Chester:

We would like to request approval to "Flare Casinghead Gas" on the above referenced well for an indefinite period of time.

The gas being produced from the well is too small to measure; consequently, there is no market or way to justify saving a few MCF of gas per day.

If this request meets with your approval, please let us know.

*Conditions of approval:  
This Office of the  
BLM will be  
notified if  
gas production  
increases to  
an amount  
greater than  
50 MCFPD.*

Sincerely,

FRED G. YATES, INC.
