Re: DeLuna Federal #3
Unit B-Section 34-12S-31E
Burkitt Federal #3
Unit C-Section 34-12S-31E
Chaves County, New Mexico

NM-15896

Gentlemen:

In accordance with NTL-4A, IV-B, Yates Drilling Company hereby requests approval to vent gas from the captioned batteries.

Gas produced from the DeLuna #3 and the Burkitt #3 has a high nitrogen and carbon dioxide content. Also delivery of this gas into a pipeline would require a low pressure system. Yates Drilling Company has been unable to obtain a contract for the gas from the captioned batteries. At such time as a contract is available, gas connections to a gas sales line will be made in a timely manner.

Yates Drilling Company respectfully requests permission to vent gas from the captioned batteries until such time as a contract is available.

The amount of gas being vented will be shown on our monthly 9-329 form.

If you need anything further, please advise.

Sincerely,

YATES DRILLING COMPANY
