This form is to be filed with the approprime District Office of the Commission not later the industry after the completion of any newly-diffied or deepened well. It shall be accompanied by one copy of all electrical and ratio-activity logs numbers on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 30 through 34 shall be reported for each zone. The form is to be filed in quintuplicate exception state land, where six copies are required. See Bule 1105.
