17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*
Liquid hydrocarbons were first sold on January 14, 1986, from a temporary storage facility serving Ultramar Oil and Gas Limited Phillips Federal Well No. 1. Oil was sold to Phillips Petroleum Company from a test tank. Production to date has been into a test tank while evaluating the economics of installing permanent storage facilities.
It is anticipated that permanent production and storage facilities will be installed on the existing well pad as stipulated in Ultramar's approved Surface Use Plan. Produced water will be stored in a closed tank at the battery site and transported via pipeline to Rice Engineering and Operating, Inc. SWD system pump station located in the NW/4 SE/4 of Section 18, T-8-S, R-33-E. A facility diagram will be submitted upon completion of the tank battery installation.
18. I hereby certify that the foregoing is true and correct
SIGNED Gary R. Hall TITLE District Engineer DATE January 14, 1986
