Vest Ranch RE Federal #1, NM-81259  
NWSE, Section 21-T14S-R30E

Dear Mr. Mayo:

Yates Petroleum Corporation is applying for approval for NTL-4A for the above captioned well. Enclosed are charts used for testing the well on February 6, 7, 8 and 9th, 1992. The gas was tested on an orifice, 1/4" plate. The nearest gas gathering facility (low pressure) is 8 miles from the location and is uneconomical to build a pipeline for the low volume. The gas is used with propane as a backup lease fuel.

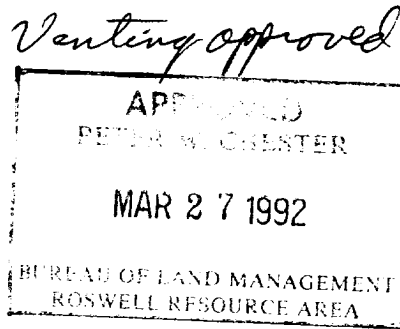

*\* When not used it is vented.*  
If additional information is needed, please let me know.

Thank you.

Yours truly,

  
Juanita Goodlett  
Production Supervisor

Encl.
