13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Operator spudded the well on July 30, 1991 with a spudder. Mechanical difficulties were encountered. Due to the fact that the Lease primary term was to expire July 31, 1991, a question has arisen as to the validity of said Lease. Rather than continue operations, Operator has abandoned the well and surrendered the Lease. Drilling did not continue long enough to discover any useful information.
