13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We propose installing a flowline from this well to existing separation and storage facilities located in the SW/4 of Section 27, T13S, R31E, Chaves Co., NM. The line would be 2 7/8" J-55 EVE, 8 Rd used tubing tested to 3000 psig, would be on-top-of-ground along previously-granted road ROW for 330ft to private surface, and extend to existing 4'x20' 3 phase Heater-treater with water metered and transferred to salt water disposal facilities. Oil would be dumped from heater-treater to a separate 210 bbl steel tank with locking devices for all valves and sold from this tank. The proposed work will start with your approval.

14. I hereby certify that the foregoing is true and correct
