SURFACE USE AND OPERATING PLAN

Attached to Form 3160-3 Marbob Energy Corporation Apache Springs Federal No. 1 1442' FNL & 2174' FWL Sec. 34, T-10S, R-30E Chaves County, New Mexico

I. Existing Roads:

- A. The well site and elevation plat for the proposed well is shown on Form C-102. It was staked by John West Engineering.
- B. All roads to the location are shown in Exhibit #3. The existing roads are illustrated in red and are adequate for travel during drilling and production operations. Upgrading of the road prior to drilling will be done where necessary as determined during the onsite inspection. Cattle guards will be installed where needed.
- C. Directions to location: From Roswell, proceed east on U.S. 380 for 35.7 miles to Mescalero Sands Recreation Road. Turn south and proceed .7 miles. Proposed access road to location is on west side of road.
- D. Routine grading and maintenance of existing roads will be conducted as necessary to maintain their condition as long as any operations continue on this lease.

2. Proposed Access Road

Exhibit #3 shows the new access road to be constructed and is illustrated in yellow. The road will be constructed as follows.

A. The maximum width of the running surface will be 10'. The road will be crowned and ditched and constructed of 6" of rolled and compacted caliche. Ditches will be at 3:1 slope and 4' wide. Water will be diverted where necessary to avoid ponding, prevent erosion, maintain good drainage, and to be consistent with local drainage patterns. BLM may specify any additions or changes during the onsite inspection.
