Gentlemen:

We have received two Notices of Intention to Drill two wells in section 5, T.13 S, R.32 E. One is located in the SW/4 NW/4 section 5, and the other well is located in the NE/4 NW/4 section. 5.

Since you have designated both of these wells as Great Western Producers, Inc., State "R" No. 2, we believe the numbering of one well should be changed in order to keep all records straight.

Please advise us as soon as possible.

Very truly yours,

bpw

Secretary and Director

Roy: We notice on the C-101 which you approved June 22, 1948, you noted "Cement must return to top of salt section or 5½" casing." No such notation was made on the other State "R" No. 2 well, and we believe such orders should be uniform.
