State Land Office  
Santa Fe, New Mexico

Re: Drilling Report  
State Lease #B-10281  
Assignment #1  
Location on 600 feet from  
the north and east, lot 1  
Section 3-14S-37E.

Dear Sir:

Supplementing our drilling report of June 5, 1953, we wish to advise that the rig was shut down on June 3, 4, 5, 6, 7, 8, and on Tuesday, June 9, operation was resumed and drilled to a total depth of 83 feet. The rig was shut down on June 10, 11, 12, 13, 14, 15, 16, 17, and on June 18, operations resumed and drilled to a total depth of 92 feet. Operation was shut down on June 19, 20, 21, 22, and on June 23, operations resumed and drilled to a total depth of 105 feet. The rig was shut down on June 24, 25, 26, 27, 28, 29, 30, July 1, and on July 2, operations resumed and drilled to a total depth of 117 feet.

Very truly yours,

HOLDER & ROSS,

A. G. Holder
