17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This operation is a re-entry of a well drilled and abandoned by Lion Oil Company in 1954. After cleaning junk and cement plugs to the top of the 5-1/2" casing stub at 8015', we were unable to tie back into the 5-1/2" casing remaining in the well. We intend to sidetrack the 5-1/2" casing in the well by setting a 200' cement plug on top of the casing stub, and then using a retrievable whipstock to sidetrack and drill a new hole to 10,000' total depth. We will then run and cement a string of 4-1/2" casing at total depth for completion attempts in the Bough "C" section. Offset operators are being furnished a copy of this notice.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
