

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

THE ATLANTIC REFINING COMPANY'S STAVENS Well No. 1 in NE/4 - NE/4  
Company or Operator Lease  
of Sec. 33, T. 14 S., R. 23 E., N. M. P. M., Wildcat - W. Lovington Field,  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well has been drilled to a total depth of 3245' in broken dolomite and anhydrite. Due to inability of the drilling rig to drill deeper, because of overloading, it is now proposed to temporarily abandon the well. Material left in hole is as follows:

1. 411' - 13-5/8" O.D., 4-40, 40# casing set at 424' in 17" hole and cemented with 250 sacks of common cement.
2. 2617.65' - 9-5/8" O.D., 4-40, 30# casing set at 2629.45' in 12 1/2" hole and cemented with 250 sacks of common cement.

In abandoning the well the hole will be loaded with drilling mud and the brauenhead will be equipped with a 4000 PSI flange, swage nipple and a 2" - 4000 PSI test gate valve. All pits will be fenced and a marker erected at the well.

Approved \_\_\_\_\_, 19\_\_\_\_  
except as follows:

Well to be plugged at a later date if  
oil is not found at a greater depth.
