9932' PB.

Form C-103, dated July 22, 1969 stated our proposed plans to open and treat additional perforations. Due to excessive cost this work will not be done at this time. The pump and tubing was found to be stuck. The rods were backed off and recovered from 7812', leaving the pump and approximately 1925' of rods in hole. Closed well in. To be carried as temporarily abandoned.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
