Re: Slick Unit #1  
Lea County, New Mexico

Gentlemen:

We plan to drill subject well in the immediate future, and would appreciate being advised the depth to which surface casing should be run in order to protect fresh water strata.

This well is located 1980 feet from the west line and 648.8 feet from the north line of Section 1, Township 13 South, Range 34 East, Lea County, New Mexico.

Very truly yours,

  
M. J. Krueger  
Production Department
