Re: Recompletion
Wingerd #12-0
Sec. 24, T12S, R37E

Gentlemen:

We are approving the recompletion of the above-referenced well as of this date for the Gladiola Wolfcamp. However, it is noted that you propose to attempt a completion in the Cisco which will come under the Southwest Gladiola Penn Pool. This pool is on 80-acre spacing and the location of this well will be unorthodox for a completion in that pool. Should the well be completed in the Cisco formation it will be necessary for you to obtain approval of a non-standard location from our Santa Fe office before an allowable can be assigned.

Please submit an acreage dedication plat, Form C-102, with your completion reports.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
