Gentlemen:

June 4, 1956, a survey was made to locate your Lois Wingard Well No. 13 at a point 660 feet from the east and 990 feet from the south lines of section 24, Twp. 12 South, Range 37 East, N.M.P.M., Lea County, New Mexico.

The survey was started from the southeast corner of said section 24 which had been reestablished at an earlier date, thence north 990 feet, thence west 660 feet to the location. To check we chained to the well located in the center of this 40 acre tract and found that it was 329.5 feet which is a very good check.

I hereby certify that the foregoing survey was made in the field under my supervision and that the same is true and correct to the best of my knowledge and belief.

Respectfully submitted,

John W. West
