# INTERNATIONAL UNION OF PURE AND APPLIED CHEMISTRY

CONVENTION OF 1958

1958, 1959

The International Union of Pure and Applied Chemistry (IUPAC) was founded in 1912 at the Hague, and has since that time been the leading international organization for the advancement of chemistry. It is now the largest and most influential of the international scientific organizations, with a membership of over 1000 scientists from more than 50 countries.

The Union is organized into several sections, each of which is responsible for a specific area of chemistry. The sections are: General Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, and Analytical Chemistry.

The Union also publishes a journal, *Pure and Applied Chemistry*, which is the leading international journal in the field of chemistry. The journal is published by the Royal Society of Chemistry, London.
