Hobbs, New Mexico

Attention: Mr. Joe Ramey

Dear Sir:

Attached hereto in triplicate copies is Form C-102 Miscellaneous Notices for perforating additional Pennsylvanian section. This well is dually completed in the Pennsylvanian and Devonian sections and is currently being worked over to shut off communication between the two zones. During workover operations we propose to perforate the additional interval in the Pennsylvanian zone in an attempt to produce this zone without the use of gas-lift equipment.

The proposed work was discussed by telephone with Mr. Eric Engbrecht on November 18, 1960.

Very truly yours,

CABOT CORPORATION

Percy C. O'Quinn
