Midland, Tex.

Gentlemen:

A check of our files shows that we have not received an initial bottom hole pressure test for your Howard Fleet et al No. 1 in Unit I of Section 35, T-13-S, R-37-E, King Devonian Pool. Rule 302 of the New Mexico Oil Conservation Commission Rules and Regulations requires that such a test be made on the discovery well of a new pool and the results reported to the Commission within 30 days of the completion of the well.

Please submit this information on Form C-124 at your earliest convenience.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Proration Manager
