New Mexico Oil Conservation Commission
P. O. Box 2045
Hobbs, New Mexico

Gentlemen:

Enclosed please find triplicate copies of Form C-102
"Miscellaneous Notices" on Cabot Corporation's Howard Fleet
No. 2 in the King-Devonian Field, Lea County, New Mexico.
This well was plugged back and re-perforated early last month
and was tested for a daily flowing rate of 240 bopd. However,
after flowing approximately 21 days, the well ceased to flow
due to water encroachment. As shown on the enclosed form, we
intend to shut off the present perforations and perforate
higher in the Devonian section.

Very truly yours,

Percy C. O'Quinn
Dist. Prod. Supt.
