SUBJECT: J.L. Reed #2-A Sec 35, T13S, R37E

Dear Mr. Boyd:

Our records indicate that the cementing committed to on wells near your proposed SWD well J.L. Reed #3-G 35-13-37 SWD-286, has been completed on the following:

New Mexico C State #1
New Mexico C State #2
Howard Fleet #2

Your August 19, 1985, letter outlining your attempt to perforate and squeeze the J.L. Reed #2 has been reviewed and we feel that any further attempt at squeezing is unwarranted at this time.

I am of the opinion that a satisfactory effort to squeeze this well has been made and that the recementing requirements have been met.

Very truly yours,

OIL CONSERVATION DIVISION
