PACKER_SETTING AFFIDAVIT (Dual Completions)

That he is of lawful age and has full knowledge of the facts herein below set out. That he is employed by Cabot Carbon Company in the capacity of Dist. Fred. Supt. and as such is its authorized agent. That on 3.29 , 19.59, he personally supervised the setting of a Baker Model "D" in Cabot Carbon Company 's (Operator) (Make and Type of Packer) (Lease) Well No. 2 , located in Unit Letter , Section 35 , Township 13 g , Range 37-E , NMPM, Lea County, New Mexico. That said packer was set at a subsurface depth of 9394 feet, said depth measurement having been furnished by Wire Line (Welex Do.). That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum bove the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer. Cabot Carbon Company (Company)
