Gentlemen:

Reference is made to our telephone conversation of this date relative to preparing the location of your E. L. Hardison #2 1-H, NE NW, Section 8-14S-37E for approval of plugging report.

In view of the fact that you advise that an agreement has been reached between the owner of the surface rights and the Dixilyn Drilling Company to the affect that the owner would fill the pits and level the location it will be necessary for you to have the lease owner write the Commission a letter stating that he is the owner of the surface rights and that he releases your Company of any responsibility for this work. It will still be your responsibility, however, to set the regulation marker.

When the above conditions have been met, you will please advise this office so that final inspection can be made and your plugging report approved.

Yours very truly,

OIL CONSERVATION COMMISSION

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the South (CLPS) in the United States. The Commission is therefore unable to determine whether the CLPS is a legitimate organization or a subversive one.
