Well put on production in May, 1981 in the Devonian with an allowable of 930 Bbls per month. We had pump trouble in August and left the well down for parts.

4-5-82 moved unit onto well and pulled cable and pump. Replaced 2000' of cable. Still having electrical problems, but well is pumping now.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
