(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Amerada Hess Corporation respectfully requests that production requirements for Federal Lease LC-064605 be suspended until December 31, 1989 or until AHC is able to produce the Federal "B" No. 1 or Federal "B" No. 2 at a profit. Although both wells are currently capable of production in paying quantities, attempts to establish a profitable operation have been unsuccessful. During the requested suspension period, AHC will evaluate potential production sources in both wells. AHC believes that plugging and abandonment of this lease would be premature and reduce revenue received by the United States from this lease.

*NOTE: Request for Suspension of production obligation for the above referenced lease was granted originally in November, 1986, and has been extended every year consecutively through May, 1989. Even though the original request was meant to apply to the Federal 'B' #2, the approval for suspension of production obligation applies to the entire lease, LC-064605.
