REPAIRING WELL ☐

ALTERING CASING ☐

ABANDONMENT* ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

It is requested that the production requirements for the Federal Lease LC-064605 be suspended until Decemebr 31, 1988 or such date as AHC is able to produce either the Federal "B" No. 1 or the Federal "B" No.2 wells on the lease at a profit. The Federal "B" No.1 which was shut-in February 14, 1984 was recompleted in the Wolfcamp in April, 1987. It was tested, and produced 10 BOPD from 5/21/87 until 10/29/87 when all attempts to make the lease profitable were unsuccessful. The Federal "B" No. 2 produced 8-10 BOPD until September, 1986. AHC is operating the lease at a loss. The lease is capable of production in paying quantities. During the interim AHC will research methods to make the lease profitable. The lease is beyond its primary term.

The BLM's failure to approve this request will result in the premature plugging and abandonment of the lease and will reduce the total revenues received by the United States from the Lease.

This request is made pursuant to 43 CFR Section 3103,4-2(A) and instruct Memorandum No. 86-808 issued by Mr. Burford on June 6, 1986.

I hereby certify that the foregoing is true and correct
