It is requested that the production requirements for the Federal Lease 71-064605-A be suspended until December 31, 1988 or such date as AHC is able to produce the Federal "A" No. 2 at a profit. The production on the well has averaged 5 BOPD from 5/87 to 10/87. AHC has been operating the lease at a loss. The lease is capable of production in paying quantities. During the interim, AHC will research methods of making the lease profitable.

The BLM's failure to approve this request will result in the premature plugging and abandonment of the lease and will reduce the total revenues received by the United State from the Lease.

This request is made pursuant to 43 CFR Section 3103, 4-2(A) and instruct Memorandum No. 86-808 issued by Mr. Burford on June 6, 1986.
