Gentlemen:

Following is a Notice of Intention to do certain work as described below at the J. C. Barnes Oil Company

(Company or Operator) Humble State Well No. 1 in 7
(Unit)
SE 1/4 SE 1/4 of Sec. 27, T-12S, R-34E, NMPM., Wildcat Pool
(40-acre Subdivision)
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

As per our Form C-101 it was our intention to cement our 8 5/8" casing at 4200 feet with 2000 sx. cement. Now in accordance with my telephone conversation with Mr. E. F. Engbrecht this morning we plan to run the 8 5/8" casing to approximately 4200 feet and cement with 200 sacks neat cement on the bottom and bring Kem-Pack up to a point sufficient to cover the salt section. We shall run a Caliper Survey and a Temperature Survey on the Intermediate casing and shall send you copies of them. Should we drill a dry hole we then plan to try to salvage all of this casing we can.

Thank you for your help and consideration in this matter.
