17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*  
It is requested that work to open additional interval in the Wolfcamp Formation be approved. Current perforations are 9807-9838'. New perforations would be at 9706-9728' at 2 JSPF and 9754'-9767' at 2 JSPF. The well would then be acidized and put on production. This work is planned for January, 1984.
