17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The production from this well had declined to the extent that it was uneconomical to operate. It was shut down January 11, 1972, and classified as temporarily abandoned by its being left shut down. Present plans are to place the well on pump and return to production in the first quarter of 1975.
