

This form is to be filled out by the operator of the well, and must be completed within 10 days of the completion of any newly-drilled or deepened well. It should be filled out by one person. All electrical and radioactivity logs run on the well and a summary of all special tests conducted, including permeability, porosity, and resistivity, shall be measured and reported. In the case of newly-drilled wells, true vertical depths shall also be reported. For multiple completions, Items 31 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where only a single copy is required. See Rule 1155.
