The Wolfcamp zone (perforations 10288-10292) and the Upper Penn zone (perforations 10362-368 & 10374-378) have both stopped flowing. We propose to temporarily abandon Wolfcamp perforations between permanent packers set at 10252' and 10330' and produce the Upper Penn w/hydraulic pump. The 5½" casing will not allow efficient pumping of both zones.
