17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well was originally completed as a dual on 10-31-68 in the Lower Wolfcamp (Perfs. 10860-10365) and Upper Penn. (Perfs. 10449-10455).

Well was worked over in March 1969 and single completed in the Upper Penn. with the Lower Wolfcamp being temporarily abandoned.

The purpose of this workover is to plug and abandon the Upper Penn. Zone by removing the tubing and setting a plug in the Baker Perm. Packer at 10,420' with 25' of cement on top. The tubing will then be rerun and well put on production with the aid of a "Kobe" pump; producing from the previously temporarily abandoned Lower Wolfcamp Perfs. 10360-10365'.

Estimated starting date for this work will be June 11, 1979.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
